

Paper Shredders

We, at Rakesh Enterprises manufacture the high quality paper shredders with the following specifications. Straight cut paper shredder machine cuts the paper into strips of desired size (3mm , 4mm or 6mm) and Cross cut paper shredder machine cuts the paper into tiny pieces of sizes varying from 3 X 15mm to 6 X 60mm. Our wide range of products caters to all the business needs from small business to Enterprise class.

Protect yourself or your business with a commercial paper shredder / heavy duty paper shredder. These paper shredders are ideal for heavy duty shredding. Place these shredders in a central location for use by an entire department. For example, use a Rakesh shredder to shred reports, bills, documents, and other sensitive material. Over two dozen commercial paper shredders available at guaranteed low prices. Order your commercial / departmental paper shredder today!

We also undertake the job work for shredding the papers, documents, files etc at your site and will take the shredded material at market value. We will complete the total process and lift the material within a day or two depending upon your workload
