ROLL LAMINATORS

Protect, enhance and preserve your documents with our Roll Laminators.

Add style and look and strength with ease.

Works great for maps, charts, signs, posters, promotional material, photographs, blueprints, calanders, artwork, menus, book jackets etc.

Easy Feed & Cut mechanism helps handle any quantity, small or large, with no material wasted.

Direct heat rollers help laminate smaller documents in pouch film.

Features:

- High quality silicone direct heat rollers.
- Micro-controller based heat control system.
- Key pad operated control panel for precise temperature and speed settings.
- Easy Film loading mechanism.
- Bright backlit LCD display.
- Elegant design.
- Heavy duty Motor, for continuous operation.
- Steel metal stand with wheels. (Optional)

Specifications:					
Model	YL-FM350 (A3)	YL-FM650 (A1)	YL-FM1055 (A0)	HD-370	HD-380
Max. laminating width	335mm	635mm	1040mm	370mm	380mm
Max. laminating thickness	6mm	6mm	6mm	2.5mm	1mm
laminating film thickness	30 micron~250micron	30 micron~250micron	30 micron~250micron	30 micron~250micron	30 micron~250micron
speed	0.5~4.5m/Minute	0.5~4.5m/Minute	0.5~4.5m/Minute	5m/min	7m/Minute
Speed adjust	YES	YES	YES	YES	YES
